| Date of birth (dd/mmm/yyyy) | Date of injury (dd/mmm/yyyy) |

4. Goal Attainment Scaling (G.A.S): Community Mental Health Program treatment is goal directed toward symptom reduction and functional restoration including the restoration of occupational functioning. It is expected the psychologist, together with the patient, will develop and evaluate SMART Goals. The SMART Goals serve to accomplish and evaluate progress towards the patient's treatment goals. SMART goals are Specific, Measurable, Achievable, Relevant, and Time-bound.

| Goals | G | oals achieved as expected? | Goal status |
|---|-----|--|---|
| (Goals set earlier in the current reporting period) | | re extent goals achieved at end of period to the beginning of the same reporting period) | |
| SMART goal # 1 | yes | Much better A little better As expected | In progress – continue in next reporting period Goal completed |
| | no | Partly achieved Much less than expected | Revision required No further gains anticipated |
| SMART goal # 2 | yes | Much better A little better As expected Partly achieved Much less than expected | In progress – continue in next reporting period Goal completed Revision required No further gains anticipated |
| SMART goal # 3 | yes | Much better A little better As expected | In progress – continue in next reporting period Goal completed |
| | no | Partly achieved Much less than expected | Revision required No further gains anticipated |
| SMART goal # 4 | yes | Much better A little better As expected | In progress – continue in next reporting period Goal completed |
| | no | Partly achieved Much less than expected | Revision required No further gains anticipated |

Comment on overall goal attainment, including as related to functional restoration:
